## INSTRUMENTS LLC

### Welcome to our Lowell Instruments newsletter!

We created this newsletter so that our customers can stay informed about the latest updates from Lowell Instruments. We plan to send out quarterly updates. If you wish to opt out you may [unsubscribe](#) at any time. Thank you for reading.

#### ***In this Summer 2019 newsletter:***

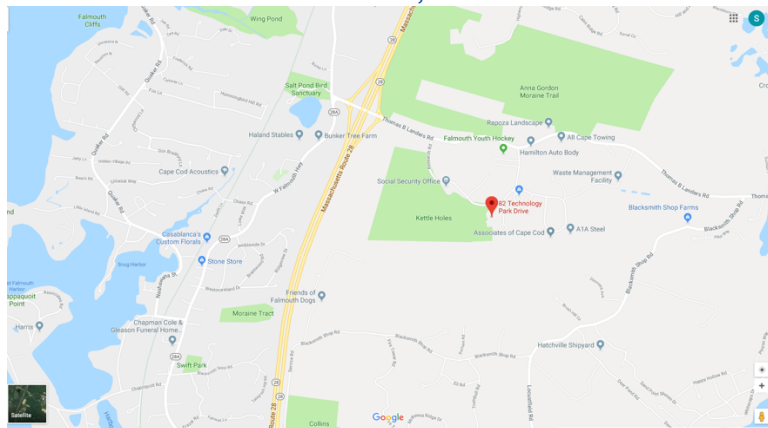

***We've moved!***  
***Field Application Story***  
***Recalibration Software and Video***  
***Research Grant Program***

### **WE'VE MOVED!**

As of July 1, our new offices will be located at Falmouth Technology Park. We are excited to move into a bigger space with room to grow. The building is a shared workspace with the potential for collaboration with other small marine technology companies. Contact us if you would like to visit us at our new location.

Our mailing address will remain the same but our physical location will be:

**82 Technology Park  
East Falmouth, MA 02536**

## FIELD APPLICATION STORY:

---

### Coral Reef Habitat Study in Florida

Lew Gramer's team (NOAA) is using TCM-1's to study direct water flow in coral reefs in Southeast Florida. Read about the application here: [CORAL REEFS IN THE KEYS](#)

## MAGNETOMETER RECALIBRATION SOFTWARE

A new software tool for recalibrating the magnetometer in MAT-1/TCM-X loggers/meters is now available. The tool allows for the correction of hard iron offsets in the field. For more information see below:
