

We are going to be in New Orleans next week for the [Ocean Sciences meeting](#). Stop by booth #302 and see the latest in our TCM Tilt Current Meters and On-Deck Data System.

[Learn More](#)

See the latest in our [TCM Tilt Current Meters](#). There are 4 model to operate in as little as 28 cm of water to 10,000 meters.

This TCM-1 will spend the next year in the Beaufort Sea Lagoons.

[Learn More](#)

Check out our [near real-time On-Deck Data System](#) for monitoring Dissolved Oxygen, Temperature, Depth & Orientation.

This system is getting ready for another season in Cape Cod Bay on the Miss Lilly.

## Proper Preparation Prevents Poor Performance

Time to start thinking about the deployment season. We want to [share a few of the more common questions](#) we've received from the field.

- Get the latest version of Domino software for Windows
- Is it time for a new battery?
- Exercise the meter for 24 hours
- Does your meter need a reset?
- Reapplying antifouling paint
